

OTTOCLICK.IN — Website Workflow & Page Structure

Total Primary Pages: 6

1. **Home / Landing Page**
 2. **About Us**
 3. **Solutions**
 - Home Automation
 - Hotel Automation
 - Institutional Automation
 - Industrial Automation
 4. **Products**
 5. **Blogs / Insights**
 6. **Contact Us**
-

1. HOME PAGE / LANDING PAGE

Objective: First 10 seconds mein visitor ko samajh aa jaana chahiye — *OTTOCLICK kya karta hai, kis ke liye karta hai aur why OTTOCLICK.*

Sections

1. Hero Section

- Strong headline
- Short subheadline
- CTA: **Explore Solutions**
- Secondary CTA: **Talk to an Expert**
- Premium automation visual/video
- Background should feel technological + premium, not generic IoT stock image.

2. What is OTTOCLICK?

- 2–3 line company introduction
- Automation + technology + integration positioning
- CTA: About OTTOCLICK

3. Our Solutions

4 cards:

-  Home Automation
-  Hotel Automation
-  Institutional Automation
-  Industrial Automation

Each card → respective solution page.

4. What We Automate

Visual/icon-based categories:

- Lighting
- HVAC
- Security
- Access Control
- Curtains & Blinds
- Energy Management
- Smart Rooms
- Sensors
- Gates / Shutters
- etc.

5. Why OTTOCLICK

4–6 key differentiators:

- End-to-End Solutions
- Custom Engineering
- Scalable Systems
- Energy Efficiency
- Centralised Control
- Installation & Support

6. Products / Technology

Featured products/categories with CTA:

Explore Products →

7. Industries We Serve

Potentially:

- Residential
- Hospitality
- Education
- Healthcare
- Corporate

- Retail
- Manufacturing
- Commercial

8. How We Work

Simple 4/5-step visual:

Understand → Design → Integrate → Install → Support

9. Featured Projects / Case Studies

Initially can be placeholders if portfolio is limited.

10. CTA Banner

Ready to automate your space?

Buttons:

- Talk to an Expert
- Request a Consultation

11. Footer

- Quick Links
 - Solutions
 - Products
 - Contact
 - Social links
 - Address
 - Email / Phone
 - Privacy Policy
 - Terms
-

2. ABOUT US

Objective

Build **trust + credibility + founder/company story**.

Sections

1. Hero

Engineering Smarter Spaces.

2. Our Story

- Why OTTOCLICK started
- Problem we're solving
- Vision

3. What We Believe

3–5 principles:

- Innovation
- Reliability
- Simplicity
- Engineering
- Customer First

4. Our Approach

Explain that OTTOCLICK isn't simply selling devices; it designs and integrates complete automation ecosystems.

5. Our Capabilities

- Consultation
- System Design
- Product Integration
- Installation
- Programming
- Commissioning
- AMC / Support

6. Industries We Serve

7. Vision & Mission

8. CTA

Let's build smarter spaces together.

3. SOLUTIONS

This should be a **main Solutions landing page**, with **4 individual solution pages** underneath it.

Solutions Structure

Solutions

So technically this becomes **5 URLs/pages** including the Solutions overview.

3A. SOLUTIONS OVERVIEW

Hero

Automation Solutions Designed Around Your Space.

Four Solution Cards

Home Automation

Smart homes, lighting, security, climate, entertainment etc.

Hotel Automation

Guest-room automation, energy management, access, lighting, HVAC etc.

Institutional Automation

Schools, colleges, hospitals, offices, campuses etc.

Industrial Automation

Industrial monitoring, control, energy management, access, safety etc.

Additional sections

- Why Automation?
 - Industries We Serve
 - Our Technology Stack
 - End-to-End Integration
 - CTA
-

3B. HOME AUTOMATION

Hero

Your Home. Your Rules. Automated.

Sections

What is Home Automation?

What Can We Automate?

- Lighting
- Curtains
- HVAC
- Security
- Door Locks
- Gates
- Entertainment
- Sensors
- Energy Management

Use Cases

- Smart Villa
- Apartment
- Luxury Home
- Second Home

Features

- Centralised Control
- App Control
- Voice Control
- Scenes & Scheduling
- Remote Monitoring

How It Works

CTA → Book a Consultation

3C. HOTEL AUTOMATION

Hero

Smarter Hotels. Better Guest Experiences.

Sections

- Guest Room Automation
- Lighting Control
- HVAC Control
- Key Card / Access Integration
- Energy Management
- Do Not Disturb / Make Up Room
- Smart Curtains
- Centralised Monitoring

Benefits

- Better Guest Experience
- Energy Savings
- Operational Efficiency
- Reduced Manual Intervention
- Premium Brand Experience

CTA

Automate Your Hotel →

3D. INSTITUTIONAL AUTOMATION

Target customers:

- Schools
- Colleges
- Universities
- Hospitals
- Corporate Campuses
- Government Buildings
- Large Commercial Buildings

Sections

What We Automate

- Lighting
- HVAC
- Access Control
- Security
- Energy Monitoring
- Conference Rooms
- Classrooms
- Hostels
- Common Areas

Benefits

- Energy Efficiency
- Centralised Management
- Security
- Operational Control
- Scalability

CTA

Discuss Your Project

3E. INDUSTRIAL AUTOMATION

Hero

Intelligent Control for Industrial Environments.

Sections

- Monitoring & Control
- Energy Management
- Lighting Automation
- Access & Security
- Equipment Monitoring
- Sensors
- Remote Monitoring

- Process Integration

Benefits

- Efficiency
- Safety
- Reduced Downtime
- Energy Optimisation
- Centralised Visibility

CTA

Talk to Our Engineering Team

4. PRODUCTS

This should **NOT just be a product catalogue.**

It should be structured so that products can later scale to 100s of SKUs.

Product Page Structure

Hero

Technology That Powers Intelligent Spaces.

Product Categories

For example:

- Smart Switches
- Sensors
- Smart Controllers
- Lighting Controllers
- Curtain Controllers
- HVAC Controllers
- Access Control
- Smart Locks
- Security Systems
- Gate Automation
- Shutter Automation

- Energy Management
- Control Panels
- etc.

Product Card

Each product should have:

Product Image

Product Name

Short description

[View Product →](#)

Individual Product Page — Future Structure

Product Name

Important: Product pages should be CMS-driven so new products can be added without redesigning the website.

5. BLOGS / INSIGHTS

Don't position this as just a generic "blog".

Better branding:

Insights

or

OTTOCLICK Insights

This can become an SEO engine for the website.

Categories

- Home Automation
- Hotel Automation
- Industrial Automation
- Institutional Automation
- Smart Buildings
- Energy Management
- Security
- Technology
- Case Studies

Blog Listing

Each card:

- Image
- Category
- Title
- Short description
- Date
- Read More

Individual Blog Page

Title

Author / Date

Hero Image

Introduction

Main Content

Images / Diagrams

Related Articles

CTA

CTA at bottom:

Want to automate your space?
Talk to OTTOCLICK.

6. CONTACT US

Hero

Let's Build Something Smarter.

Contact Information

- Phone
- Email
- Office Address
- WhatsApp
- Working Hours

Enquiry Form

Fields:

- Name*
- Company
- Phone*
- Email*
- City
- Project Type
- Solution Required
- Estimated Project Size/Budget
- Message

Solution Dropdown

Home Automation
Hotel Automation
Institutional Automation
Industrial Automation
Product Enquiry
Partnership
Other

Map

Office location.

Final CTA

Have a project in mind?
Let's talk.

Overall Sitemap

Designer/developer ko ye exact structure de sakte ho:

OTTOCLICK.IN

Navigation Bar

Logo | Solutions ▼ | Products | About Us | Insights | Contact Us

Right side:

Get a Consultation →

Important Design Direction

Designer ko ye **mandatory design brief** dena:

Visual Positioning

OTTOCLICK ko "**smart-home gadget seller**" jaisa nahi dikhana hai.

It should feel like:

Technology + Engineering + Premium + Enterprise

Visual references should lean toward **premium architecture, smart buildings, luxury interiors, control systems and industrial technology.**

Avoid

- ✗ Overuse of blue IoT graphics
- ✗ Random smart-home stock photos
- ✗ Too many gradients
- ✗ Cheap-looking icons
- ✗ Excessive animations
- ✗ Product-catalogue feel
- ✗ "Alexa/Google Home" type generic positioning

Prefer

- ✓ Dark / premium visual language
- ✓ Large typography
- ✓ Architectural photography
- ✓ Clean grids
- ✓ Subtle animations
- ✓ Product close-ups
- ✓ Technical diagrams
- ✓ Interactive solution sections
- ✓ Strong whitespace
- ✓ Premium enterprise aesthetic

Recommended Website Architecture

Ek important point: **6 primary navigation items rakho, lekin actual website 6 pages ki nahi hogi.**

Initial architecture roughly:

6 primary sections → 10+ actual page templates → unlimited CMS product/blog pages

This gives OTTOCLICK room to grow without rebuilding the website when you start adding products, projects, case studies and new automation verticals.
